Select a Target beverage
102
Acquire Target Beverage Component Profile
104
Determine pH Value Target Beverage
106
Select a Beverage Source
108
Acquire Beverage Source Component Profile
110
Determine pH value of Beverage Source
112
Select appropriate Supplemental Beverage Source Component and quantity required
114
Select appropriate Beverage Source Component Modifier and quantity required
116
Add appropriate Supplemental Beverage Source Component and appropriate Beverage Source Component Modifier
118
Acquire Resulting Beverage Component Profile
120
Determine pH value of Beverage Portion
122
Compare Resulting Beverage Component Profile and Target Beverage Component Profile
124
Adjust Resulting Beverage Portion pH value
124
